<h3>Change Background Color:</h3>

```

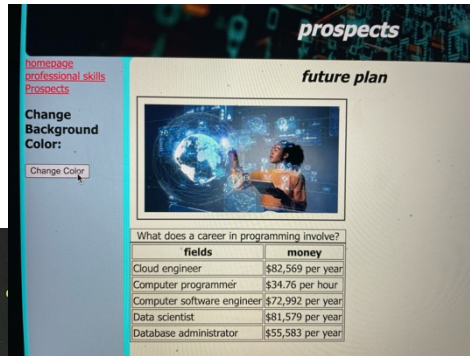

The previous style was the background color, but the white color wouldn't change, making it a bit monotonous.

```

6  /*change color prospects.index */
7  const button = document.getElementById('change-color-btn');
8
9  button.addEventListener('click', () => {
10    const colors = ['#ff0000', '#00ff00', '#0000ff', '#ffff00', '#00ffff'];
11    const randomIndex = Math.floor(Math.random() * colors.length);
12    const randomColor = colors[randomIndex];
13
14    document.body.style.backgroundColor = randomColor;
15  });

some useful website for how to learn computer language

1. Java
2. HTML
3. Python

After adding the code, it has become a prompt for insufficient annual income as long as the input age is less than 19. If the age is enough, there will be feedback, which is more rich than before and provides feedback to users.
